Inventive Communication and Computational Technologies
Proceedings of ICICCT 2019
The series “Lecture Notes in Networks and Systems” publishes the latest developments in Networks and Systems—quickly, informally and with high quality. Original research reported in proceedings and post-proceedings represents the core of LNNS.

Volumes published in LNNS embrace all aspects and subfields of, as well as new challenges in, Networks and Systems.

The series covers the theory, applications, and perspectives on the state of the art and future developments relevant to systems and networks, decision making, control, complex processes and related areas, as embedded in the fields of interdisciplinary and applied sciences, engineering, computer science, physics, economics, social, and life sciences, as well as the paradigms and methodologies behind them.

** Indexing: The books of this series are submitted to ISI Proceedings, SCOPUS, Google Scholar and Springerlink **

More information about this series at http://www.springer.com/series/15179
We dedicated to all the participants of the conference ICICCT 2019
We welcome you to the 2019 International Conference on Inventive Communication and Computational Technologies (ICICCT 2019) held on April 29–30, 2019, at Gnanamani College of Technology, Namakkal, Tamil Nadu. ICICCT 2019 provides a highly competitive forum for reporting the latest developments in the research and application of communication and computational technologies. We are pleased to present the proceedings of the conference as its published record.

The conference particularly encouraged the interaction of research students and developing academics with the more established academic community in an informal setting to present and to discuss new and current work. Their contributions helped to make the conference as outstanding as it has been. The papers contributed the most recent scientific knowledge known in the fields of modern communication systems which include informatics, data communication and computer networking, wireless communication, electronics, software engineering, machine learning and optimization, VLSI design and automation, networking, computing systems, social networks, Internet of things, cloud and big data.

We hope that this program will further stimulate research in advanced electronics and communication technologies, artificial intelligence and capsule networks, data communication and computer networking and communicating things networks. We feel honored and privileged to serve the best recent developments in all the areas of communication technologies to you through this exciting program.

We thank all the authors and participants for their contributions.

Namakkal, India

Dr. G. Ranganathan
Conference Chair
ICICCT 2019
Preface

The 2019 International Conference on Inventive Communication and Computational Technologies (ICICCT 2019) was held on April 29–30, 2019, at Gnanamani College of Technology, Namakkal, India. ICICCT 2019 aims to cover the recent advancement and trends in the area of communication and computational technologies to facilitate knowledge sharing and networking interactions on emerging trends and new challenges.

ICICCT 2019 tends to collect the latest research results and applications on data communication and computer networking, software engineering, wireless communication, VLSI design and automation, networking, Internet of things, cloud and big data. It includes a selection of 136 papers from 430 papers submitted to the conference from universities and industries all over the world. All of the accepted papers were subjected to strict peer-reviewing by 2–4 expert referees. The papers have been selected for this volume because of quality and the relevance to the conference.

We would like to express our sincere appreciation to all the authors for their contributions to this book. We would like to extend our thanks to all the referees for their constructive comments on all papers, especially we would like to thank the Organizing Committee for their hard work. Finally, we would like to thank the Springer publications for producing this volume.

Namakkal, India

Dr. G. Ranganathan
Conference Chair
ICICCT 2019
We would like to acknowledge the contribution made to the organization by its many volunteers. Members contribute their time, energy and knowledge at a local, regional and international level.

We also thank all the chair persons and conference committee members for their support.
Contents

Enhanced Security Mechanism in Cloud Based on DNA Excess 3 Codes ................................................. 1
Manjot Kaur and Kiranbir Kaur

TensorFlow-Based Semantic Techniques for Multi-cloud Application Portability and Interoperability ........................................ 13
Tanveer Kaur and Kiranbir Kaur

Enhancing High Availability for NoSQL Database Systems
Using Failover Techniques ............................................... 23
Priyanka Gotter and Kiranbir Kaur

Implementation of Automated Bottle Filling System Using PLC .... 33
S. V. Viraktamath, A. S. Umarfarooq, Vinayakgouda Yallappagoudar and Abhilash P. Hasankar

An Integrated Approach to Network Intrusion Detection and Prevention ......................................................... 43
B. Bhanu Prakash, Kaki Yeswanth, M. Sai Srinivas, S. Balaji, Y. Chandra Sekhar and Aswathy K. Nair

A New Design of Equiangular Circular Cum Elliptical Honeycomb Photonic Crystal Fiber ........................................... 53
Ashish Jain, Ravindra Kumar Sharma, Vimal Agarwal and Sunil Sharma

Survey of Different Countermeasure on Network Layer Attack in Wireless Network ............................................ 61
Amruta Chavan, Dipti Jadhav, Nilesh Marathe and Nilima Dongre

Internet of Things: Service-Oriented Architecture Opportunities and Challenges .................................................... 71
G. R. Sagar and N. Jayapandian
Performance Comparison of Multicast Routing Protocols Based on Route Discovery Process for MANET
Kinjal Adhvaryu

New Complex Hybrid Security Algorithm (CHSA) for Network Applications
Haider K. Hoomod, Ali Jameel Al-Mousawi and Jolan Rokan Naif

Performance Assessment of Various Encoding Schemes with Bit Stuffing
S. Bharath and Gayathri Narayanan

3D(Dimensional)—Wired and Wireless Network-on-Chip (NoC)
N. Ashokkumar, P. Nagarajan and P. Venkatramana

Performance Analysis of Unified Threat Management (UTM)
Jatin Gharat, Amarsinh Vidhate and Amit Barve

Development of an Efficient Nondestructive Grading Method for Pomegranate Using Magnetic Resonance Imaging and Neural Network
Surekha Yakatpure and Krupa Rasane

Implementation of Differential Privacy Using Diffie–Hellman and AES Algorithm
P. V. Vivek Sridhar Mallya, Aparna Ajith, T. R. Sangeetha, Arya Krishnan and Gayathri Narayanan

Implementation of Neural Signals in MATLAB (Thought Signals)
Kambhampati Sai Sandilya, Poornima Mohan, Madiraju Akshay Bharadwaj, B. Maragatha Eswari, K. Namitha, O. Rajasekhar Reddy and J. Vaishnu Saran

A Framework for Formal Verification of Security Protocols in C++
R. Pradeep, N. R. Sunitha, V. Ravi and Sushma Verma

Locality—Aware Scheduling for Containers in Cloud Computing
G. Charles Babu, A. Sai Hanuman, J. Sasi Kiran and B. Sankara Babu

TorBot: Open Source Intelligence Tool for Dark Web
P. S. Narayanan, R. Ani and Akeem T. L. King

A Novel Approach to View and Modify Data in Cloud Environment Using Attribute-Based Encryption
Swaminathan Subbiah, S. Palaniappan, Sigamani Ashokkumar and Ananthakrishnan BalaSundaram
Total Variation and Alternate Direction Method for Deblurring of Digital Images .......................................................... 361
S. Rinesh, C. Prajitha, V. Karthick and S. Palaniappan

Design of MIMO Triangular Microstrip Patch Antenna for IEEE 802.11a Application ........................................ 369
M. Arulaalan, K. Mahendran, P. Prabakaran and G. Manikannan

A Hollow Core Bragg Fiber with Multilayered Random Defect for Refractive Index Sensing ........................................ 381
K. Ben Franklin, R. Kumar and C. Nayak

Generation of Multiple Key Based on Monitoring the User Behavior .................................................................................. 391
S. Palaniappan, Steward Kirubakaran, V. Parthipan and S. Rinesh

Towards Convolution Neural Networks (CNNs): A Brief Overview of AI and Deep Learning ........................................ 399
Preetjot Kaur and Roopali Garg

Populating Indian GST Details into Java Apache Derby Database Powered by Glassfish Server ........................................ 409
R. Sridevi and S. Srimathi

Intrusion Detection System Using WoSAD Method ........................ 423
R. Sridevi and N. Nithya

Blackhole Attack Implementation and Its Performance Evaluation Using AODV Routing in MANET ............................... 431
Anshu Kumari, Madhvi Singhal and Nishi Yadav

Enhancement of Security Using B-RSA Algorithm ........................ 439
Aman Gupta, Saurabh Gupta and Nishi Yadav

Analyzing Different Multiparty Computation Techniques .......... 451
Tanmay Borade, Dhananjay Dakhane and Tushar Ghorpade

Power and Delay Comparison of 7:3 Compressor Designs Based on Different Architectures of XOR Gate ..................... 461
Rekib Uddin Ahmed and Prabir Saha

Survey of Big Data Warehousing Techniques ............................ 471
Jaspreet Kaur, Rajashree Shedge and Bharti Joshi

Detecting Denial-of-Service Attacks Using sFlow ....................... 483
Shivaraj Hublikar, Vijaya Eligar and Arun Kakhandki

Area and Power Efficient Multiplier-Less Architecture for FIR Differentiator ............................................................... 493
Sanjay Eligar and R. M. Banakar
Optimized Prediction Model to Diagnose Breast Cancer Risk and Its Management .................................................. 503 
Athira Vinod and B. R. Manju

Smart Cane Design for Indoor and Outdoor Navigation: A Cost-Effective Guide ..................................... 517 
Vandana Mansur and R. Sujatha

Triclustering of Gene Expression Microarray Data Using Coarse-Grained Parallel Genetic Algorithm ................. 529 
Shubhankar Mohapatra, Moumita Sarkar, Anjali Mohapatra and Bhawani Sankar Biswal

Ensemble Feature Selection to Improve Classification Accuracy in Human Activity Recognition .................. 541 
Nivetha Gopalakrishnan, Venkatalakshmi Krishnan and Vinodhini Gopalakrishnan

An Exploration on Cloud Computing Security Strategies and Issues ............................................... 549 
Amrita Raj and Rakesh Kumar

A Hybrid Approach-Based Energy Aware Cluster Head Selection for IOT Application .......................... 563 
A. Kannammal and S. Suresh

Modified Dive and Rise Technique Incorporating Enhanced Weighted Centroid Localization Algorithm with Ocean Current Mobility Model in Underwater Acoustic Sensor Networks .................. 569 
R. Bhairavi and Gnanou Florence Sudha

Tree-Based Approaches for Improving Energy Efficiency and Life Time of Wireless Sensor Networks (WSN): A Survey and Future Scope for Research ........................................ 583 
Pranesh and Santhosh L. Deshpande

Automated Cyber Threat Intelligence Generation from Honeypot Data .................................................. 591 
Kumar Sanjeev, B. Janet and R. Eswari

Analysis of MPTCP Packet Scheduling, The Need of Data Hungry Applications ........................................ 599

About the Editors

**Dr. G. Ranganathan** has been a Professor at Gnanamani College of Technology since 2017. Previously, he has worked at Ranganathan Engineering College and Jayalakshmi Institute of Technology. He has also worked as a Professor at RVS Technical Campus, Karpagam College of Engineering and P.R. Engineering College. He completed his Ph.D. and M.E. at the Information and Communication Engineering Department, Anna University. His areas of interest include biomedical signal processing, neural networks, fuzzy logic, networking and VLSI signal processing. He has published five books and numerous research papers in international journals.

**Dr. Joy Chen** received his B.Sc. in Electronics Engineering from the National Taiwan Technical University, Taipei, Taiwan, and his M.Sc. in Electrical Engineering from Dayeh University, Changhua, Taiwan, in 1985 and 1995, respectively. He completed his Ph.D. in Electrical Engineering at the National Defense University, Tao-Yuan, Taiwan, in 2001 and is currently a Full Professor at the Department of Communication Engineering, Dayeh University. Prior to joining Dayeh, he worked at the Control Data Company (Taiwan branch) as a Technical Manager from 1985 to 1996. His research interests include wireless communications, MIMO systems, OFDM systems, and wireless sensor networks. Dr. Joy I.-Z. Chen has published numerous SCI/EI journal papers and holds several patents in Taiwan.

**Dr. Álvaro Rocha** holds a Habilitation (postdoc) in Information Science, Ph.D. in Information Systems and Technologies, and M.Sc. in Information Management. He is currently a Professor of Information Systems and Software Engineering at the University of Coimbra, President of AISTI (the Iberian Association for Information Systems and Technologies), and Chair of IEEE SMC Portugal Section Society Chapter. He served as Vice-Chair of Experts for the European Commission’s Horizon 2020 Programme, and as an expert at the Italian Ministry of Education, University and Research. His main research interests are information systems planning and
management, maturity models, information system quality, online service quality, intelligent information systems, software engineering, e-government, e-health, and IT in education.

Ruthvik Chanda Department of Electronics and Communication Engineering, Amrita Vishwa Vidyapeetham, Amritapuri, India

K. Chandrasekaran Department of Computer Science and Engineering, National Institute of Technology Karnataka, Surathkal, Mangalore, India

G. Charles Babu Department of CSE, Malla Reddy Engineering College (Autonomous), Secunderabad, Telangana, India

Swati Chavan IT Department, Terna Engineering College, Mumbai University, Navi Mumbai, Maharashtra, India

Amruta Chavan Department of IT Engineering, RAIT, Nerul, Navi Mumbai, India

Keerthana Chigateri Department of CSE, N.M.A.M.I.T, Nitte, India

A. Christy Jeba Malar Sri Krishna College of Technology, Coimbatore, Tamil Nadu, India

Dhananjay Dakhane Ramrao Adik Institute of Technology, Navi Mumbai, India

Pooja Dalvi IT Department, Terna Engineering College, Mumbai University, Navi Mumbai, Maharashtra, India
Neelam Dayal  Department of Computer Science & Engineering, Centre for Advanced Studies, AKTU, Lucknow, India

Tribid Debbarma  Department of Computer Science and Engineering, National Institute of Technology Agartala, Agartala, India

S. Deeksha  Department of Computer Science and Engineering, Vidyavardhaka College of Engineering, Mysuru, Karnataka, India

M. Deepthi  Department of Computer Science and Engineering, Vidyavardhaka College of Engineering, Mysuru, Karnataka, India

Smita Deshmukh  IT Department, Terna Engineering College, Mumbai University, Navi Mumbai, Maharashtra, India

Santhosh L. Deshpande  Department of Post Graduate Studies, Visvesvaraya Technological University (VTU), Belgaum, Karnataka, India

M. Deva Priya  Sri Krishna College of Technology, Coimbatore, Tamil Nadu, India

R. Devi Priya  Department of Information Technology, Kongu Engineering College, Erode, India

K. Dhanya  K. Ramakrishnan College of Engineering, Trichy, India

E. Dhivyaprabha  Sri Krishna College of Technology, Coimbatore, Tamil Nadu, India

J. Dhoulath Beegum  Department of ECE, TKM College of Engineering, Kollam, Kerala, India

Ashwini Dhummal  Department of Computer Science and Engineering, NMAMIT, Nitte, Karnataka, India

C. D. Divya  Department of Computer Science and Engineering, Vidyavardhaka College of Engineering, Mysuru, Karnataka, India

Nilima Dongre  Department of IT Engineering, RAIT, Nerul, Navi Mumbai, India

Prutha Edwankar  Department of Mechatronics Engineering, MPSTME, NMIMS University, Mumbai, India

Vijaya Eligar  KLE Technological University, Hubballi, India

Sanjay Eligar  BVB College of Engineering and Technology, Hubli, India

B. Maragatha Eswari  Department of Electronics and Communication Engineering, Amrita School of Engineering, Kollam, Kerala, India

R. Eswari  National Institute of Technology, Tiruchirappalli, India
Sorjeeta Gupta Department of Information Technology, KCG College of Technology, Chennai, India

V. J. Haran Muthoot Institute of Technology and Science, Kochi, India

D. Harini SAASTRA Deemed to be University, Thanjavur, India

A. Harish Information Science and Engineering, R.V. College of Engineering, Bengaluru, India

Abhilash P. Hasankar Department of E&CE, SDMCET, Dharwad, Karnataka, India

Haider K. Hoomod Computer Science Department, College of Education—Mustansiriyah University, Baghdad, Iraq

Mohammad Emdad Hossain Department of Business Administration, International Islamic University Chittagong, Chittagong, Bangladesh

B. J. Hubert Shanthan Department of Computer Science, St. Joseph’s College, Trichy, India

Shivaraj Hublikar KLE Technological University, Hubballi, India

V. Indu Department of Electrical and Electronics Engineering, Amrita Vishwa Vidyapeetham, Amritapuri, India

Akshaykumar Jadhav IT Department, Terna Engineering College, Mumbai University, Navi Mumbai, Maharashtra, India

Dipti Jadhav Department of IT Engineering, RAIT, Nerul, Navi Mumbai, India

Sandeep Jadhav KPIT Technologies Limited, Pune, Maharashtra, India

Ashish Jain Apex Institute of Engineering & Technology, Jaipur, India

Bhumika Jain Department of Computer Science and Engineering, Vidyavardhaka College of Engineering, Mysuru, Karnataka, India

Aashish Jaisimha Information Science and Engineering, R.V. College of Engineering, Bengaluru, India

B. Janet National Institute of Technology, Tiruchirappalli, India

Gaurav Jariwala Sarvajanik College of Engineering and Technology, Surat, India

N. Jayapandian Department of Computer Science and Engineering, CHRIST (Deemed to Be University), Bangalore, India

C. Jeyalakshmi K. Ramakrishnan College of Engineering, Trichy, India

Saksham Jhawar Information Science and Engineering, R.V. College of Engineering, Bengaluru, India
